STATEMENT OF APPRECIATION AND COOPERATION

It is a great pleasure, in my capacity of Chairman of the Dermatology Division of the University of Rome "G. Marconi", Rome, Italy, and in my capacity of President of the Interdisciplinary Research Center of Regenerative Medicine of the same Athenaeum, to announce Vitiligo.Clinic. Vitiligo.Clinic is a collaboration between Professor Michael Tirant, Professor Davinder Parsad and Professor Torello Lotti.

Congratulations to Professor Michael Tirant, Professor of Dermatology and Venereology of the University of Rome "G. Marconi" for becoming the Chairman of the Vitiligo.Clinic based in Australia offering services worldwide.

This important achievement of Professor Tirant represents a great honor for our Athenaeum, an unprecedented chance to get the best results in preclinical and clinical research thanks to a fruitful international academic cooperation and the possibility for patients affected by Vitiligo and Pigmentary Disorders to receive the latest and most effective and safe treatments in the new Vitiligo.Clinic. We all feel indebted to Professor Tirant on his ability to expand our common academic mission by installing such a successful and innovative Vitiligo.Clinic under his direction in Australia.

We hope that the Scientific Community, the Students and the Vitiligo Patients will benefit from the extraordinary experience of Professor Tirant and from our continuous cooperation in the field of research and clinical treatment with the Vitiligo.Clinic.

Vivat, Crescat et Floreat !
