

## What you should know about: Vitiligo.Clinic® Skin Prep Lotion

### What is in this leaflet?:

The aim of this leaflet is to inform users of the benefits and risks of using Vitiligo.Clinic® Skin Prep Lotion

Keep this leaflet with the as you may need to refer to it.

- **Always read the instructions carefully and take note of any warnings for use.**
- **Use Vitiligo.Clinic® Skin Prep Lotion within the lifespan indicated by the Period After Opening symbol or best before date.**
- **Never mix Vitiligo.Clinic® Skin Prep Lotion with other products.**
- **Apply Vitiligo.Clinic® Skin Prep Lotion directly to skin or with clean cotton pad.**
- **Avoid sharing your personal Vitiligo.Clinic®Skin Prep Lotion with another person.**

### What is Vitiligo.Clinic® Skin Prep Lotion used for?:

Vitiligo.Clinic® Skin Prep Lotion cleanses and prepares the skin surface for the application of the Vitiligo.Clinic® Emollient Vitiligo.Clinic® Skin Prep Lotion improves skin barrier function and microbial defence.

Vitiligo.Clinic® Skin Prep Lotion is applied to areas of the skin only where skin tone is lighter than normal skin.

It is recommended for best results that the Vitiligo.Clinic® Skin Prep Lotion is used in conjunction with Vitiligo.Clinic® Emollient as the two topicals complement each other. It is also recommended that, in order to address the systemic (internal triggers) the Vitiligo.Clinic® PSC 100 is ordered.

### BEFORE you start to use Vitiligo.Clinic® Skin Prep Lotion:

**ALWAYS** apply a small amount on a small area as a **TEST PATCH** before use, especially if it is to be used in sensitive skin areas. Leave on for 24-48 hours without washing the area.

If you have a reaction of **any kind please notify the Distributor immediately.**

If there has not been a reaction apply the Vitiligo.Clinic® Skin Prep Lotion as directed.

If you have had any type of allergic reaction herbal extracts or essential oils in the past it is advisable to **TEST PATCH** your skin before using this product.

### Directions for use: SHAKE WELL BEFORE USE

Apply twice (2) x daily to affected lesions / facial area.

### IMPORTANT TO NOTE:

If you use Vitiligo.Clinic® Skin Prep Lotion **less often** than you should, it may not work as well and the appearance of uneven skin tone may not improve.

By using Vitiligo.Clinic® Skin Prep Lotion **more often** than you should, you will not see notable improvement in skin tone any faster, and may actually aggravate your skin.

### Side Effects:

If you experience any adverse reaction, **discontinue use** and see a practitioner immediately. It is also important to contact the distributor.

### Safety and storage:

Keep out of reach of children.

If swallowed attend the emergency centre of your nearest hospital. **DO NOT INDUCE vomiting.**

Keep lid tightly on product when not in use.

Avoid storing product in direct sunlight or near sources of heat.

Store below 25°C – but do not freeze.

### Appearance:

Vitiligo.Clinic® Skin Prep Lotion is a light pink - tan coloured liquid, that slightly foams when shaken.
